

TRANSPORTATION EMPLOYEES ASSOCIATION OF MISSOURI

CHAPTER 10

P.O. Box 160, Sikeston, MO 63801-0160

Dear Fellow Employees,

The Transportation Employees Association has been working since 1950 to represent all employees of the transportation department. We have been active in several areas, but there has always been one central theme, helping the employee.

One of the most important decisions that the Association makes each year is the determination of what issues to focus our efforts. In order to discover what issues are important to employees, it is vital that there is a person that is willing to listen and communicate these issues with Chapter 10 Association officers.

We are asking current Association members to become delegates that would be willing to fulfill this responsibility. The person would need to be open to suggestions from all employees, and be willing to communicate those suggestions to the Association officers. It sounds like a simple request, but it is a most important responsibility.

Please make the effort to help all employees. Volunteer a little of your time to help everyone.

Thank you,

Debbie Strobel
Chapter 10 Association President
